GAIN Ultra-Fibre Mash (15kg)

A high fibre, low starch, quick soak mash which is extremely palatable and suitable for horses and ponies requiring a low starch ration

Key features

- Nutritionally balanced mash with added minerals and vitamins
- High fibre, low starch, oat free formulation provides slow release energy
- Increases fibre content of the diet to support gut health
- Quick soak in cold or warm water for approx. 15 minutes
- Extremely palatable to help tempt even the fussiest of feeders or those on the sick/easy list
- Low starch levels provide nutritional support for horses and ponies with low starch requirements
- Helps horses to maintain hydration
- Fully fortified with major minerals, trace elements and an excellent vitamin pack
- Contains Bioplex® copper, zinc and selenium
- Sel-Plex® organic selenium helps to maintain additional antioxidant support
- FOS prebiotic maintains the hindgut microbiome and supports fibre digestion
- Contains Yea-sacc® live yeast to support the hindgut microbiome and fore gut digestion
- Linseed provides essential omega 3 fatty acids, helping to support the immune system and a healthy coat
- Ca:P ratio is 2:1 (compared to 1:10 in straight wheat bran)
- Contains mycotoxin binders
- Contains garlic & spearmint
- Feed daily in small amounts to help support hindgut microbiome and aid digestion
- **Tested product**

Main Composition

Soybean hulls, Wheat bran, Sugar beet pulp, Maize flakes, Sugar cane molasses, Linseed, Soybean meal dehulled, Soybean oil, Soybean toasted flakes, Alfalfa.

Packaging

15kg paper bag.

Analytical Constituents

DE MJ/kg	Crude Protein %	Crude Oil & Fat %	Crude Fibre %	Vit. A iu/kg	Vit. D3 iu/kg	Vit. E iu/kg	Ca:P mg/kg	Cu mg/kg	Se mg/kg
10.8	12.0	5.8	18.3	5,625	750	75	2	25	0.25

Instructions For Use

Complementary feed for adult horses and ponies as a supplement to adequate forage and water.

Feed as a wet mash. * **Minimum 15 minute soak time**

Reduce other concentrate feeds by the same dry weight.

To produce a wet mash, mix 1 part Ultra Fibre Mash to 2 parts warm water by weight.

Maximum feeding rate 0.5 kg/day/100kg bodyweight.

Do not feed with forage from high selenium soils.
